# REPORT OF THE SCHOOL BOARD

OF THE

## Town School District of Northfield.

---

In presenting our annual report, we would say that our schools have been conducted much as heretofore and with a general degree of success. The teachers have generally been successful. Some have manifested a commendable zeal in their work, while in others more of this element would have added to their efficiency.

The Hodgdon district was unfortunate the past year by having sickness in the school which caused the school to be closed. That district has been unfortunate in the past on several occasions by having the school brought to a close before its equal number of weeks had been schooled out, which the School Board are in hopes to make up in the near future. With the balance of the appropriations of 1904 and 1905 and the appropriation of last March, we have repaired the plastering in the Oak Hill school room, shingled the Pond school house and the Rand school buildings and one-half of the Bean Hill and Bay Hill school houses. One-half of the Bean Hill school house will need shingling the present year and most, if not all of the school houses, need painting, for which we recommend an appropriation of two hundred dollars.

Respectfully submitted,

CHARLES L. BARNARD,  
OTIS C. WYATT,  
GAWN E. GORRELL,

School Board.

# ANNUAL REPORT OF THE BOARD OF EDUCATION

Of Union School District No. 1, in Tilton

---

The Board of Education of Union School District, respectfully submit its report.

We have been fortunate in being able to retain the services of the most of our teachers who have taught in our schools before.

In the death of Mrs. Seymour, we lost a helpful, cherry and bright teacher. Truly she was a leader of the youth. She rests from her labors, but her works do follow her.

The pupils in our primary room increased in such numbers that one teacher could not do justice to them, and we secured the service of Miss Chamberlain for an assistant teacher. If this number still continues, a sub-primary room will be imperative in the fall.

We were asked to unite with Tilton, Hill and Danbury to form a supervisory district, but the board did not deem it advisable, as the superintendent could only be in our schools one day or one-half day once in two weeks. So little time would not give us as good results as we now obtain with our principal acting as superintendent and doing in a measure a superintendent's work.

The basement floor has been reconcreted and it is giving good satisfaction.

The walls of the school rooms and the corridors have been whitened. The assembly hall will need attention the coming year.

New reading books, physiologys and arithmetics have been put into all the grades. New language books have

been put in part of the grades, and the other books replenished where needed.

The number of different pupils enrolled two weeks or more during the year is 317, twenty-one of these are tuition scholars.
